“LOST”

On September 22 - 29, Pacific Pump and Power rented three Critically Silenced Godwin Dri-Prime Pumps to Grass Skirt Productions, working with Ahuna Special Effects, to create a hurricane scene for the show “LOST”.

The two 4” pumps worked together pumping from a hydrant into rain towers, while the 6” pump circulated water in a large pool, creating a turbulence that looked like a real hurricane. Combined, these three pumps can produce a total flow of more than 5 million gallons per day.

Grass Skirt Productions is a wholly owned subsidiary of ABC Studios, currently filming the 6th Season of the television show “LOST”.
