Turn Key HDPE Pipe Fusion!

Pacific Pump and Power is your best choice for HDPE pipe fusion in Hawaii. We have a fleet of equipment in stock on island ranging from a little 2LC up to a Trac Star T900! This means we have like new equipment in our rental fleet capable of ½" up to 36" Butt Fusion plus we have electro-fusion equipment.

Our fleet of equipment is a great attribute but even better we have the factory certified personnel to back it up! We have McElroy certified mechanics, operators with their small, medium and even their large diameter certifications and our General Manager is a McElroy Level III Instructor. This means our staff are more trained in fusion than anyone else on island.

With new additions to our fleet of a Trac Star 28, a new rolling 412 more pipe stands and the T900 we now have one of the largest fleets of fusion equipment in Hawaii and all of our gear is in impeccable condition ready to rent or for turn key services. We are also happy to work on your gear if you own fusion equipment and would like it looked at by someone who is experienced with it.

If you are interested in, or need assistance with fusion, compressed air, pumps, power, sewer bypass, pipe plugs, service or operations, please call us at 808-672-8198 or email Sales@PacificPumpandPower.com

Check us out on the web at www.PacificPumpandPower.com
