Best Qualified Electro-Fusion Technicians in the State!

Pacific Pump & Power has really been ramping up our electro-fusion over the past few weeks! Conditions on our sites have required a significant number of electro-fusions to complement our butt-fusion work! These situations have included adding a flange adaptor to the end of a 32" pipe in tight space confines, an emergency repair and a large rework to an intricate piping system.

Similar to HDPE Butt-Fusion, electro-fusion, when done correctly per the ASTM standards, leaves the piping 105% the strength of the virgin piping with a 0% leak rate so we can rest assured that the fittings will be the strong points in the piping.

Pacific Pump & Power has three level 1, 2, and 3 electro-fusion certified technicians, meaning we have been certified by one of the most respected trainers in the country in all sizes of electro-fusion. Those of you familiar with us on butt-fusion know how precise our operators are at following the standards to ensure optimal results. You can now expect the same level of meticulousness on electro-fusion.

If you need assistance with fusion, compressed air, pumps, power, sewer bypass, pipe plugs, service or operations, please call us at 808-672-8198 or email Sales@PacificPumpandPower.com
