

The Pacific Pipeline

February 2024 Newsletter

Thank you to those of you who stopped by!

Pacific Pump & Power had a couple of booths at the Pacific Water Conference at the Hawaii Convention center again this year. We want to thank everyone who came by to visit and talk to us at the booths.

We brought back the dead hang competition, but this year we made the pull-up rig out of HDPE and it was a hit! Thank you to all who participated and congratulations to the winner of the new iPad for the record time of 1 min and 45 seconds! Hanging on HDPE with its low friction properties is way harder than it looks! Thank you to Integrity Fusion for donating the materials for the pull-up rig and their support at the show.

If you need assistance with irrigation pumps, joint testing, HDPE or PVC pipe fusion, dewatering, sewer bypasses, generators, compressed air, dredging, pumps, pipe plugs, service or operations, please call us at 808-672-8198 or email us at Sales@hawaiiumps.com.
